Liked

- Created an open space to support one another
- Allowing each other to try new aspects of programming (i.e. front-end, back-end)
- Working together when planning (ERD, Acceptance Criteria, etc) so that we are all on the same page
- Teammates are responsive when there are any blockers to discuss

Learned

- Creating feature branches and learning how to create merge requests
- How to better delegate tasks
- How to make business cases to the PO
- How to setup from scratch

Lacked

 - Need to integrate more! (I agree !)
 - (I agree x2 !)

Longed For
